

Community Partnerships

South Australia

Penola High School Students

At Beach, we're committed to being an active member in the communities we are part of. This includes investing in community-led projects that promote resilience, empowerment and positive change in the areas outlined below.

Education

Quality education allows people of all ages to develop personally and professionally, leading to greater employment outcomes and economic development. Beach recognises the importance of education and personal growth in any discipline, but especially those with a keen interest in Science, Technology, Engineering and Maths (STEM).

Environment

A healthy and sustainable natural environment allows local communities, economies and businesses to prosper. Beach is committed to understanding and respecting the environment, which includes forging partnerships aimed at protecting and conserving local ecosystems.

Health, safety and wellbeing

Local communities, economies and businesses flourish when people are safe, happy and healthy. Beach invests in initiatives that target community connection and inclusion, along with supporting organisations helping people in times of need.

*Total amount invested: \$2,577,00 (Beach \$978,600 | JV \$1,598,400)

Below are just a few examples of organisations and projects in South Australia making a difference in the community.

Penola Country Fire Service

Our partnership strengthened community safety through preparedness sessions, equipment demonstrations, and seasonal risk education. We supported volunteers to engage young people, reinforced bushfire planning, and coordinated event participation to build resilience and awareness across the district.

Penola High School

Nurturing Individual Success
Enriching the minds of tomorrow

Penola High School

Our partnership supported student wellbeing, attendance, and pathways through coordinated programs and tailored learning support. We collaborated on excursions, mentoring and community projects, aligning activities with curriculum and local needs while strengthening relationships between students, staff, and families.

Nature Foundation

Our partnership advanced environmental education and stewardship. We delivered nature-based experiences, citizen science activities, and conservation messaging aligned to local ecosystems. Together we increased participation, supported teachers with resources, and encouraged practical actions that protect biodiversity.

Penola Hospital

We worked together to connect community health priorities with local engagement. Collaboration supported health promotion activities, strengthened pathways to allied services, and enabled shared spaces for information sessions. Together we improved communication, participation, and wraparound support for families.
