

Community Partnerships Western Australia

Teach Learn Grow

Beach, together with its joint venture partner Mitsui E&P Australia (MEPAU) is committed to being an active member in the communities where we operate. This includes investing in community-led projects that promote resilience, empowerment and positive change in the areas outlined below.

Education

Quality education allows people of all ages to develop personally and professionally, leading to greater employment outcomes and economic development. Beach recognises the importance of education and personal growth in any discipline, but especially those with a keen interest in Science, Technology, Engineering and Maths (STEM).

Environment

A healthy and sustainable natural environment allows local communities, economies and businesses to prosper. Beach is committed to understanding and respecting the environment, which includes forging partnerships aimed at protecting and conserving local ecosystems.

Health, safety and wellbeing

Local communities, economies and businesses flourish when people are safe, happy and healthy. Beach invests in initiatives that target community connection and inclusion, along with supporting organisations helping people in times of need.

*Total amount invested: \$996,848 (Beach \$500,924 and Beach's Joint Venture Partner Mitsui E&P Australia \$495,924)

Below are just a few examples of organisations and projects in Western Australia making a difference in the community.

Northern Agricultural Catchment Council

We worked together to support land, water, and biodiversity outcomes. Collaboration delivered workshops and communications on sustainable practices, restoration, and monitoring. Together we strengthened community participation, aligned priorities, and improved access to resources.

Teach Learn Grow

Our partnership strengthened early learning and family support through coordinated playgroups, educator networking, and resource sharing. We aligned practice with child development goals, improved referral pathways, and increased engagement for families needing accessible, locally delivered learning opportunities.

EarBus Foundation

We worked together to improve children's hearing health and learning outcomes. Collaboration supported screening coordination, family follow-up, and education about ear health. Together we strengthened links between schools, health services, and caregivers to reduce barriers to support.

Energy Club WA

Supporting youth engagement through structured sessions that built teamwork, routines, and positive choices. Together we improved program delivery, increased participation, and connected young people to mentoring, community events, and pathways that build confidence and belonging.
