

Community Partnerships

Australia and New Zealand

be

Royal Flying Doctor Service

At Beach, we're committed to being an active member in the communities we are part of, and collectively contributing to a more sustainable future. This includes investing in community-led projects that promote resilience, empowerment and positive change in the areas outlined below.

Education

Quality education allows people of all ages to develop personally and professionally, leading to greater employment outcomes and economic development. Beach recognises the importance of education and personal growth in any discipline, but especially those with a keen interest in STEM.

Environment

A healthy and sustainable natural environment allows local communities, economies and businesses to prosper. Beach is committed to understanding and respecting the environment, which includes forging partnerships aimed at protecting and conserving local ecosystems.

Health, safety and wellbeing

Local communities, economies and businesses flourish when people are safe, happy and healthy. Beach invests in initiatives that target community connection and inclusion, along with supporting organisations helping people in times of need.

Below are just a few examples of organisations and projects across Australia and New Zealand making a difference in the community.

Deakin Blue Carbon Lab

Looking at restoring degraded mangrove systems in Western Port Victoria, assisting in the capture and storing of blue carbon.

By helping to support the mangrove growth, we support the capture and storage of blue carbon, trialling world first biodegradable lattice structures through this project too.

South Australia Museum

Proudly continuing to support the SA Museum through focussing on the revival of Aboriginal Living Languages and Education initiatives and funding of the Sprigg room events.

Royal Flying Doctor Service Central Operations

A milestone 21st year of this partnership, the RFDS provides extensive primary health care and emergency aeromedical retrieval services across rural and remote Australia. Exceeding \$1.2 million helping to support Australians with accessible emergency healthcare.

Roderique Hope Trust

Beach helps support the Ready to Rent programme aiding tenants who are facing homeless, focussing on improving knowledge and skills, building confidence, empowering them to have a successful renting experience, ultimately maintaining a long-term rental property. Over 150 families registered with 90 of these having a place to call home.
